Hi Kate,

Thank you for the feedback! We really appreciate Easylink’s efforts on significantly expediting these two orders.

The 200m pcs. ready by 6/13 is great news. I wanted to know if it was possible to have an additional 200m pcs. ready to ship by 6/30? If we have to wait until 7/11 for the rest of the order to be complete, we will most likely need to air freight parts and we would like to avoid that scenario if possible. Please let us know if this is a possibility for Easylink. Thank you!
